RE: Technical Memorandum Submittal for Region F

Dear Mr. Barnett:

Enclosed are the seven reports that are to be included in the Technical Memorandum submittal. The Region F Water Planning Group authorized the consultants to submit this data through an action item at the May 15, 2014 Planning Group public meeting. This submittal is expected to be ratified by the Planning Group at the upcoming August 21, 2014 meeting.

These reports include:

- Report 1-Population Projections: Report provides a list of each municipal WUG by their region, county, basin splits and their associated population projections.
- Report 2(A)-Water Demand Projections: Report provides a list of each municipal WUG by their region, county, basin splits and their associated demand projections.
- Report 3- Water Availability: Report lists the water availability by source. Individual sources are identified by source name, source detail, region, county, basin, and salinity.
- Report 4-Existing WUG Supplies: Report lists existing WUG supplies by source for each WUG by their region, county, basin, and source.
- Report 2(B)/5/8-WUG Category Summary: Report includes population, demand, existing supplies, and need summaries by WUG category type for each region.
- Report 7-Identified Water Needs/Surpluses: Report lists the difference between total existing WUG supplies and projected demands is calculated for each WUG by their region, county, and basin.
- Report 11-Source Water Balance Report: Report lists the difference between total availability of a source and the sum of the existing WUG supplies associated with it.

An electronic copy of the reports were also emailed to you on August 1.

Please call me if you have any questions regarding our submittal.

Sincerely,

John Grant
Chairman, Region F
