Career History and Accomplishments

County Engineer, Reeves County, Pecos, Tx.

- Employ, on behalf of the County, all employees for Road & Bridge, Cemetery/Parks and Building & Grounds Maintenance Departments.
- Direct, assign, reassign and evaluated all of the employees in my departments.
- Develop and establish internal regulations, rules, and procedures which I as Engineer deemed necessary for the efficient and effective operation of the County Maintenance Departments.
- Accept all resignations and administer terminations of employees of the County Maintenance Departments.
- Develop and manage the fiscal budget in a responsible and efficient manner.
- Coordinate projects between local governmental agencies such as County, Economic Development Corp., Convention & Visitors Bureau, and School District.
- Organize, delegate, and monitor the functions and activities of municipal engineering design and inspection, and contract administration.
- Oversight of municipal infrastructure in the functional areas of capital project design and construction, maintenance, and traffic engineering operations.

- Review of all new development to ensure compliance with County and other applicable standards.
- Coordinate the County's engineering functions with consulting engineers, planners, and architects.
- Review engineering plans and conditions for compliance to engineering standards and objectives for County Commissioners.
- Responsible for design or rehabilitation of existing roadways, of new roadways or bridge structures.
- Responsible for the hydrological design of water ways and water structures.
- Responsible for the design and implementation of the annual roadway maintenance program.

City Manager/Engineer, City of Fort Stockton, TX.

Under the direction of the City Council, I performed the following duties as City Manager:

- Employ, on behalf of the City, all other employees of the City.
- Direct, assign, reassign and evaluated all of the employees of the City.
- Organize, reorganize and arranged the staff of the City.
- Develop and establish internal regulations, rules, and procedures which I as Manager deemed necessary for the efficient and effective operation of the City.
- Accept all resignations and administer terminations of employees of the City.
- Develop and manage the fiscal budget in a responsible and efficient manner.
- Coordinate projects between local governmental agencies such as County, Economic Development Corp., Convention & Visitors Bureau, and School District.
- Under the Direction of the City Council, I performed the following duties as City Engineer:
- Organize, delegate, and monitor the functions and activities of municipal engineering design and inspection, and contract administration.
- Plan, direct and review the activities of the Engineering, Building, and Public Works Divisions.
- Oversight of municipal infrastructure in the functional areas of capital project design and construction, maintenance, and traffic engineering operations.
- Review of all new development to ensure compliance with City and other applicable standards.
- Coordinate the City's engineering functions with consulting engineers, planners, and architects.
- Review engineering plans and conditions for compliance to engineering standards and objectives for City Council.

Civil Engineer, TxDOT, Odessa District, Ft. Stockton Area Office.

- Assisted in the reorganization and training of the new Design Procedures as the Area Office converted from manual design to computer aided design.
- Responsible for design or rehabilitation of existing roadways, of new roadways or bridge structures.
- Responsible for the hydrological design of water ways and water structures.
- Responsible for the training of Engineer-in-training candidates in the policies and procedure of TxDOT.
- Coordinated construction projects between hired construction company and TxDOT personnel.
- Quality control and assurance through the inspection and management of construction projects designed by the Area Office.
- Responsible for the design and implementation of the annual roadway maintenance program.

- Acquired extended knowledge of field surveying.

Owner, RBR Design & Construction.

- Responsible for the daily operations of the company.
- Designed and managed construction projects as a project manager.
- Architect Intern, Vandergriff Group Architects, Midland, TX.
- Responsible for the preparation of construction plans of government buildings.
- Architect Intern, Larry Donham, Inc., Andrews, TX.
- Responsible for the preparation of construction plans for school buildings.
- Acquired working knowledge of surveying.
